Find out more.....

The civil engineering industry welcomes all walks of life, and there are many ways to start a career in any one of the multiple roles that make up one of its expert teams.

Some of the required skills and personal attributes are:

A Team Player	Good Problem-Solver
Logical Thinker	People Person
Maths & English	Science or engineering qualification
Good Communicator	Willingness to learn new technologies

The great thing about the industry is that there is an abundance of resources out there to help you choose the right career path. Have a look at some of the links below and find out which is the career for you and speak to your career's advisor or your local college on how to progress your qualifications or apply for an apprenticeship.
